Smoking is illegal indoors

This is a non-smoking house so please do not smoke inside. There are seats at the front and rear where smokers can enjoy a cigarette or cigar in the open air DON'T smoke indoors as this is considered to be a place of work for my agent and is therefore illegal. The smell lingers and spoils the atmosphere in the house. If you do smoke indoors we may need to have the soft furnishings and carpets professionally cleaned and will have no choice but to charge you for this remedial work.

EMERGENCY FIRE ACTION PLAN

Please familiarise yourself with the exits from the house.

FRONT EXIT. Please leave the key beside or in the door when locking it.

REAR EXIT. The key is hanging on a hook above the window in the door.

In the event of a fire. Shout a warning. Please go out through the nearest exit and make sure everyone is out of the building.

Do not waste time taking any belongings.

Phone 999 and report the fire.

The address is 12 Ballaghmore Cottages, Portballintrae.

FIRE EXTINGUISHERS

There is a fire blanket in the cupboard to the right of the cooker and a fire extinguisher under the sink.

Pets

Small pets are welcome by prior arrangement, they are welcome the living rooms and hall BUT must be kept out of the bedroom carpets and off all furniture. The surroundings are communal so please keep your dog on a lead and remove any dog waste.

Dog hair on the furniture or bedrooms will incur a £200 cleaning charge.

If your pet fouls outside in the communal area please bag and remove the waste, as it can be dangerous to children and is not pleasant for others.

There is a baby gate that can be used to keep pets downstairs if you are going out. If your pet can climb the gate please lift cushions so your pets don't sleep on them. Please ask Tracy for this.

If your pet is likely to climb onto the furniture please bring throws to protect the furniture. Please lift cushions if you leave your pets in unattended or at night so your pets don't sleep on them.

If these are soiled by the dog or there is pet hair they will need to be cleaned for which we will impose a charge.

Location and directions

12 Ballaghmore Cottages, Portballintrae, BT57 8RJ

Directions If you are coming by car & boat via Larne or Belfast or from George Best Belfast City Airport you can either take the scenic Causeway Coastal Route which passes through Carrickfergus, the Glens of Antrim, Giant's Causeway, Bushmills and Portballintrae. This is the long way round 2-3 hours, but worth it for the scenery. The shorter route is 75 minutes via Ballymena & Ballymoney. If you are arriving at Belfast International the direct route via Ballymena & Ballymoney is significantly shorter.

At Ballymoney take the road towards Portrush, 7 miles on take the right junction towards Bushmills, at Bushmills take the road to Portballintrae. Just as you pass the 30MPH limit coming into PBT you will see two sets of pastel coloured town houses. These are Ballaghmore Cottages and #12 is in the middle of the block furthest from the road.

Electric Vehicle Charging Point

There is a 13amp, three pin charging socket at the front of the house. Please contact Lyn for payment and access code.

Water, Heat, Fire and Shower

Hot Water

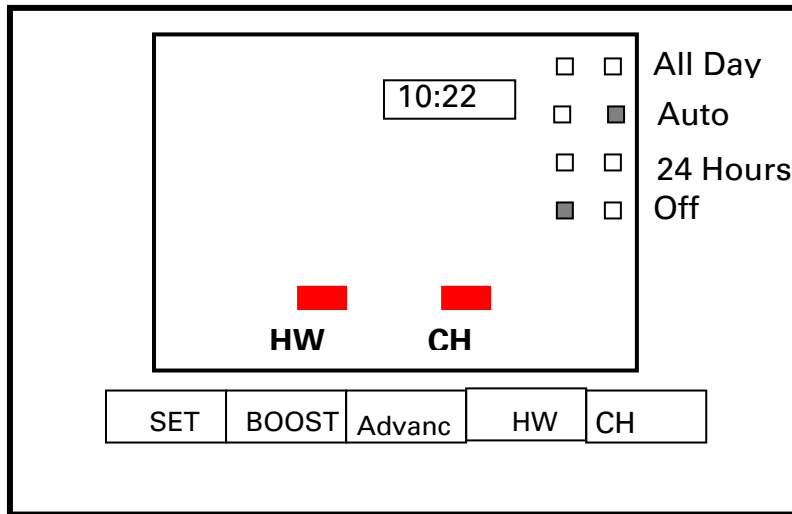

There is an oil-fired boiler, which is controlled by a timer located beside the wardrobes in the downstairs hall.

If it is too hot please do not open the windows, just change the settings.

The timer is set in the summer for hot water and in the winter for hot water and heating. Tracy will show you how it works.

The left hand black indicator on the LCD screen should show **AUTO**. Other settings only waste energy and increase our carbon footprint. Please ensure that it is on auto, if not press the **HW** button until the black indicator shows beside the label **Auto** (Timer). A red neon light shows when the HW is on.

For extra hot water press the **BOOST** button on the control unit.

Central Heating

Timed Heating

All the rooms have thermostatic valves, please set these to suit. 3.5 - 4 is usually high enough. Setting these higher does not heat the room faster, it only makes the rooms too hot.

Also there is a room thermostat above the bookcase in the living room.

The CONTROL PANEL is beside the wardrobe in the hall. For Central Heating press the **CH** button on the control until the black indicator for CH shows beside the label **AUTO**.

Immediate heat.

If you want the heat on right away press the **ADVANCE** button on the panel, this will start the heating, which will then turn off at the end of the next cycle. There is a thermostat in the sitting room at the top of the stairs, which is usually set to 24°C.

Room Thermostats, Individual Preference

Please adjust the individual radiator thermostats to suit. 3 - 4 is usually comfortable at 20-24 °C

Switching the heat off

If you don't need the Central Heating please press the **CH** button on the control until the black indicator shows beside the label **OFF**.

Open Fire

There is an open fire in the living room. **Peat Briquettes, firelighters and sticks** are supplied. There is a basket for logs, a chest for coal and a small chest for sticks in the living area. If you run out please phone Tracy.

Outside there is a store box with extra Briquettes and a galvanised bucket for ashes. When the ashes are cold please put them into a plastic bag, tie tight and put into the black bin.

Always use the **Fire Guard** when unattended or an adult is not in the room.

Please do not carry hot ashes or embers, wait until they are cool before clearing the fire.

CANDLES

Please be careful if using tea lights, do not place on an unprotected surface. Always put out at night.

The Kitchen, Cooking, Eating and Laundry.

Safety

There is a **Fire Extinguisher** under the sink. There is a **Fire Blanket** in the lower cupboard on the right-hand side of the oven.

Please find where the extinguisher and the fire blanket are located and ensure that you read the instructions now.

Cooking

There are sharp knives in a knife block on the work surface and cutting boards in the cupboards. Please always use a **cutting board**.

There are pots, pans and ovenware in various cupboards.

Please don't put hot pots on the work surface; use the metal pot racks provided.

The oven and hob are electric so are simple to use. There is an electric kettle on the work surface, and an electric toaster.

Please use the extractor fan when cooking, otherwise the kitchen will get very hot, steamy and unpleasant.

Beware as all cooking surfaces will get hot and can cause burns.

BBQ

There is a BBQ at the back door. You can use prepack BBQ or Charcoal in this. Please do not leave it unattended, especially if there are young children.

We have supplied plastic glasses in the dresser for the safety of children if they are drinking outside.

Dining

Crockery is in the large dresser at the end of the dining table and cutlery in the drawer to the left of the sink.

There are six chairs and four extra stools in the bedrooms.

So decant your passengers at the Nook Pub just at the entrance to the car park and then pay for one parking ticket. Access to the stones is FREE, just walk through the passageway and enjoy your visit. Have a refreshment in the Nook Pub or Causeway Hotel afterwards.

Alternatively park at Runkerry beach in Portballintrae and walk along the shore or in the sandhills along the Tram Line to the entrance of the Giant's Causeway

The beach at Portballintrae, the White Rocks and the two beaches at Portrush are excellent for surfing and Bodyboarding. They are not for amateurs as the waves can be mega and there is an undertow at Portballintrae and the White Rocks.

For beginners go to Troggs or Woodys Surf Shop in Portrush and **GET ADVICE**. Kids use the West Bay at Portrush otherwise go out in light conditions with good supervision.

Wind Surfing

The wave break with a cross off shore at the Runkerry end of the main beach in PBT is magic. Access is down a small lane (looks like the entrance to a private yard of an old cottage) just before the main entrance to Runkerry House. Other beaches, in order, White Rocks Portrush West and East, and Portstewart are pretty good when the wind direction suits, but pale into insignificance when there is a 8 foot face and force 5-6 WSW 'erly.

Walking

Everywhere, check out maps. <https://www.walkni.com/>

A lovely short walk is to go around Ramore Head. This is the large promontory headland at the end of the Portrush peninsula. You can make this quite short or walk on along the rocky shore at Lansdowne Crescent past the Blue Pool to the Arcadia to have coffee and scones at 55 North Café; then home.

Walk to the Whiterocks along the East Strand. 2 miles; on to Dunluce Castle 2 miles; on to Portballintrae, 3 miles; then 10 mile hikes along the shore and cliff from PBT past the Giants Causeway to White Park Bay.
